The first two weeks is an adjustment period for everyone; please be patient with us while we make any necessary adjustments to the bus routes. Pick up times will become more predictable after this two week period is over as we will have a better idea of who will be riding regularly.

If you have any questions or concerns, please do not hesitate to call the M.S.A.D. #49 Transportation Department at 453-4230. We thank you for your patience.
